

Secondary (years 7-12) student use of mobile phones and personal devices

Scope

This school policy is implemented in line with the Department for Education's [Student use of mobile phones and personal devices policy](#), which applies to all government schools. This document provides direction to students, staff, and families about managing personal devices that students choose to bring to school.

For the purposes of this policy, **personal devices** include mobile phones, smart watches and other digital devices that are capable of sending or receiving messages or calls and/or able to connect to the internet, and personal laptops or iPads that are not owned by the school and have not been brought to school by the student under a separate Bring Your Own Device (BYOD) agreement.

Rationale

With the widespread and increasing ownership of mobile phones and other devices among students it is critical that schools, in partnership with families, provide clear guidance for students to become informed, safe, respectful, and responsible digital citizens.

It is the Department for Education's position that access to personal devices during school hours must be managed so that students can be fully present in their learning and in their interactions with their teachers and peers.

The aim of this policy is to help promote:

- safe environments with reduced negative impacts of inappropriate use of devices at school, such as cyberbullying, exposure to harmful content, and critical incidents that involve mobile phones
- classroom environments where teachers can teach, and students can learn, free from distractions caused by personal use of devices
- use of breaks as quality time away from screens, encouraging physical activity and play and meaningful face-to-face connections with peers.

Personal devices at school

Our school recognises that there are legitimate reasons for students to bring a mobile phone or personal device to school. This may include:

- as a measure to ensure their safety while travelling to and from school
- so that parents and part-time employers can contact them outside of school hours
- so they can be contacted about a person under their own care, where applicable
- to be used during school hours in line with an exemption that has been approved by the Principal under this policy.

While students are at school, or attending school activities, they must comply with any reasonable directions given by school staff in line with this policy regarding their personal devices.

The Department for Education's policy requires all students at all department schools to **keep personal devices 'off and away' between the start and end of each school day, and while they are attending school activities off-site, such as local camps and excursions.**

All students are required to hand in their personal devices to the front office from the start of each school day and can be collected at the end of the day, this includes before attending authorised school activities off-site, such as camps and excursions.

It is compulsory for all government schools to follow this department-wide policy. There are some special provisions for adult re-entry schools.

Exemptions from the policy

Students will not be able to access their personal devices at any time during school hours, unless they have received an approved [exemption](#) from the school to use the device for a specific, agreed reason. This means both physical access and remote access (e.g. connecting with the personal device via hotspot or using paired headphones).

Exemption approvals are subject to the student using their personal device appropriately and only for the specific, agreed purpose of their exemption.

Exceptional circumstances (mandatory)

Individual students may have exceptional circumstances that require a longer-term (or indefinite) exemption from the requirements of the policy, including where:

- the device is used to monitor or help manage a health condition
- the device is a negotiated adjustment to a learning program for a student with disability or learning difficulties
- the device is used for translation in the classroom by a student with English as an additional language
- the student has personal circumstances that require them to have more ready access to their personal device, such as being a parent themselves or a primary carer to younger siblings or an unwell family member.

Please contact the school if you need to request an exemption due to exceptional circumstances. These requests will be considered by the principal (or delegate) on a case-by-case basis. If approved, the exemption will be recorded in the student's file or health care/learning plan as appropriate.

Storage of personal devices

Students in years 7-12 are required to turn off devices (this includes any wearable technology that fits the definition of this policy, such as smartwatches) or place them in flight mode and hand in their personal devices at the Front Office upon arrival at school each day, to be securely stored by office staff. Students will be able to collect their device from the Front Office at the end of the school day, or when being signed out early by a parent.

Students' personal devices (mobile phones, smartwatches, tablets or laptops) will be securely stored in the front office. Students will receive a 'receipt' upon hand over and this will be required at collection at the end of the day.

If the student does not comply

Using a personal device for a non-exempted purpose, or using it inappropriately, is a behaviour choice and therefore students who fail to follow the guidelines in this policy, the following consequences (in no particular order) will be applied:

- 1) Students will be asked to hand up the phone at the Front Office and can be collected at the end of the day.
- 2) Confiscation of the mobile phone/personal device (collected by parent at the end of the day).
- 3) An office time-out, in school detention or, internal or external suspension.
- 4) Where a student repeatedly and intentionally breaches the requirements of this policy, or refuses to follow a staff member's direction to hand over a personal device that has been used inappropriately, a member of the school leadership team will contact home.

Where a student's misuse of personal devices is repeated or serious, it may be necessary for the school to consider responses in line with the department's suspension, exclusion and expulsion of students procedure, or to contact South Australia Police if the behaviour is suspected to be illegal.

Where a student's device is confiscated, it will be stored in the front office until collected by student or their parent.

Misuse or illegal use of devices

Incidents of misuse of personal devices may be in relation to:

- bullying and harassment
- transmission of explicit images
- photographing, recording, or uploading inappropriate content.

Where incidents occur during school hours, or in connection with the school, they must be managed and reported in line with departmental policies and procedures including:

- reporting critical incidents and injuries procedure
- behaviour support policy
- procedures for the suspension, exclusion and expulsion of students
- search and seizure procedure
- responding to online safety incidents in South Australian schools guidelines

Roles and responsibilities

Principal

- Make sure:
 - The school's policy has been endorsed or ratified by governing council and is clearly communicated and accessible to all students, staff, and families
 - there is a process for regular review of the school's local policy
 - secure storage is provided for student personal devices that are handed in to school staff
 - processes are in place for monitoring internet and school network use by all members of the school community.
- Enforce the policy and responses to instances of non-compliance.
- Consider requests for exemptions from the policy from parents or independent students due to exceptional circumstances on a case-by-case basis. Make sure that approved exemptions in this category are documented and that relevant staff, including temporary relief teachers, are informed about students with an exemption.
- Model appropriate use of mobile phones and support school staff to do the same. Support families to understand the importance of promoting safe, responsible, and respectful use of mobile phones to their children.
- Report and respond to incidents of inappropriate or illegal use of personal devices in line with department policy and procedures and any legal requirements.

School staff

- Deliver learning opportunities and maintain a safe and productive learning environment. Take steps to minimise distractions from the non-educational use of personal devices in the learning environment.
- Respond to instances of non-compliance in line with the school's policy.
- Report and respond to incidents of inappropriate use of personal devices in line with department policy and procedures and any legal requirements.
- Ensure students who are given permission to access their personal device use it appropriately and only for the specified purpose, and store their personal devices away after the exempted activity has concluded.
- Make sure that any student personal devices handed in for their care are stored in a secure location and are returned to the student (or their parent) by the end of the same school day.
- Model appropriate use of mobile phones and support families to understand the importance of promoting safe, responsible, and respectful use of mobile phones to their children. Use mobile phones for work-related/emergency purposes only when students are under their care.

Students

- Comply with the requirements of this policy and follow all reasonable directions from the principal and school staff.
- Switch all personal devices off, or into flight mode, on arrival at school each day and store it away as specified in this policy.
- If permitted to use a mobile phone or personal device in line with an exemption under this policy, do so in a safe, responsible, and respectful way and support peers to do the same.
- Communicate respectfully with others and do not use a mobile phone or other personal device to bully, harass, or threaten another person.
- Respect others' rights to privacy and do not take photos, film, or audio records of other people without their knowledge or permission.
- Notify a school staff member as soon as possible if feeling unwell or experiencing any other issues at school. Use the school's sign-out processes in all cases where requiring early collection from school.

Parents

- Support the school's implementation of this policy, including the consequences for non-compliance.
- Encourage their child not to bring a personal device to school unless necessary. Understand that the department does not provide insurance for accidental loss or damage to personal property that is brought onto school grounds (however, claims may be met under the department's public liability insurance where the loss or damage can be attributed to a negligent act or omission on the part of the school – the school will contact the department for advice if this may be the case).
- Use the school's formal communication channels in all instances to communicate with the school or to make contact with their child during school hours (including where a student requires early collection from school). Encourage their child to always report to a school staff member in the first instance if they become unwell or experience an issue at school.
- Recognise the important role they play in supporting their child to use their mobile phone (or other personal device) in a safe, responsible, and respectful way.

Communication and review

Outline:

- students, staff, and families will have access to this policy on the school website
- consultation has been undertaken with students and the broader school community (Governing Council) to make local decisions in line with this policy, and will be involved upon review.
- Review date – January 2024

Questions, concerns, and further information

This policy has been implemented by the school in line with the Department for Education's 'Student use of mobile phones and personal devices policy'. You can find more information about this policy, and links to further resources for parents about personal devices and online safety, on the department's website: [Mobile phones and personal devices at school \(education.sa.gov.au\)](http://education.sa.gov.au).

If you have any questions or concerns about the department's policy, you can contact the department at:
